## OVERLAND CONVENTION

Mardi Gras Celebration Copied in Toledo—Big Parade of Overland Dealers From All Parts of The U. S. —Wauseon Dealer Will Participate

Robert Gottschalk, the local Overland and Willys-Knight dealer is busy with preparations for advertising his home town in Toledo on the occasion of an Overland dealers convention in that city December 14th and 15th. The feature of the convention will be a great parade copied after the famous Mardi Gras celebration in New Orleans. More than 40 dealers from this section of Ohio and Michigan will represent their home industries and products with elaborate floats and competition is keen among the dealers for the winning prizes.

So extensive are the plans of the Willys-Overland Inc., which has this celebration in charge, for an unusual demonstration, that it is expected thousands of Ohio and Michigan citizens will be on hand to applaud their local dealers and support them in their endeavor to make a showing for their individual districts. Several of the dealers have offered prizes for the best suggestions for appropriate floats.

The dealers are to arrive in Toledo on Thursday, December 14th, and the plans now are that they will go directly to the beautiful new Branch of the Willys-Overland Inc., corner 14th and Adams streets, where they will register, and programs for the two days of fun will be turned over to them. Uniform costumes have been provided for each dealer along with appropriate souvenirs.

The first real event on the program will be a parade around Toledo Thursday afternoon and a trip to the splendid administration building of the Willys-Overland Company where the Ohioans will give a farewell demonstration for a delegation of West-

ern dealers who will then be concluding their two days convention at the home factory.

As a matter of fact the Ohio and Michigan dealers convention is only part of a mammoth convention program of the Willys-Overland Company from December 4th to 23rd. During that period, practically all of the Company's dealers from coast to coast will visit the factory and it is the aim of the local dealer and others in his territory to surpass all the other visiting delegations in point of enthusiasm and demonstration. Every two days during the period between December 4th and 23rd, delegations from far and near will arrive. Because of the fact that there are more than 5,000 dealers it was not deemed advisable to bring them all to Toledo at one time, consequently the convention program was extended so that the crowd of visitors would never be so great as to endanger a good time.

On Friday, December 15th, the Ohio and Michigan dealers will own the city. One whole day has been engaged for Thursday night in order that the dealers may rehearse their plans for the big showings and early Friday forenoon the real fun will start. Present indications are that practically every type of float from "Garden of Eden" scenes to one portraying "Morgan's Raiders" will be in evidence. On the latter will be real guns and real soldiers and one of the incidents will be a fitting salute to John N. Willys the head of the great organization of which the dealers are a part.

Saturday morning the Ohio delegation will leave for home.

### BIG STATE CORN SHOW

Three hundred dollars in cash will feature among the awards to the winners in the 27 classes offered in the ninth annual Ohio State Corn Show to be held at the Ohio State University during Farmers' Week, January 29 to February 2, 1917. Two silver cups will also be included among the prizes. The state is divided into four divisions with separate classes in each. The best ears of corn in each division will then be entered for the grand champion sweepstakes prize, a trophy cup awarded by "The National Stockman and Farmer."

Besides the corn classes there will be others in wheat, oats, rye, barley and soybeans along with clover and timothy seed. For the first time in the history of the show, potatoes will be displayed. Five classes are open to exhibitors of tubers.

Another large trophy will be awarded by the Ohio State Grange to the grange securing the greatest number of points made at awards to individual exhibitors from the respective granges. All the 722 granges in Ohio are eligible to compete.

C. A. Gearhart, Wooster, Ohio, is secretary and general manager of the show.

### GLEE CLUB IN PRIVATE CAR

For the first time in the history of the club, a private car will be used by the Men's Glee Club of The Ohio State University in its tour of the state during Christmas vacation. Formerly the men lived at hotels of the towns at which they were singing, but this year's plan will keep the members together and do away with the inconvenience of one-night stands.

The trip will start December 26 and end the Monday following New Year's. Contracts have been signed for concerts at Youngstown and Dayton, and negotiations have been started with Akron, Canton, Coshocton, Hamilton, Springfield, Findlay, Fostoria and Kenton.

### RECOMMENDS POTATO BREAD TO AMERICAN HOUSEWIVES

Potato bread is not alone a ration for the war-stricken peoples but also a very pleasing and nourishing food which any American housewife can prepare by using a recipe made up by the Department of Agriculture. It calls for 3 lbs. of boiled and mashed potatoes and 2 1/2 lbs. of wheat flour. Bread made with these materials has a rich brown crust, an appetizing color, a very agreeable taste, and will keep fresh several days longer than ordinary bread.—From the December Popular Mechanics Magazine.

## Investment Information

There is more concentrated, essential information about good 7% investments in the 24 pages of our new "Portfolio of Investment Securities" than in any similar publication that we know about. Some of the 22 securities described have behind them splendid records of prosperous growth.

Steady, uninterrupted incomes, come from securities of real merit that are chosen in the light of long experience and sound information. Just at this time there is much mis-information and irresponsible advice about investments, and it is unwise to buy without first consulting an experienced investment house of good standing.

We want investors everywhere to know about our long experience and our enviable record of service to our customers. For that reason, we have prepared this new "Portfolio" and will be glad to mail it, without expense, on application.

Overland  
Automobiles

Which  
Do You  
Prefer?

## Pullman or Freight?

No one would think of riding in a freight car if he could enjoy the comfort of a big, comfortable easy riding Pullman parlor car.

So with automobiles. Most of the popular priced cars ride like freight cars. This is due to the old fashioned type of spring.

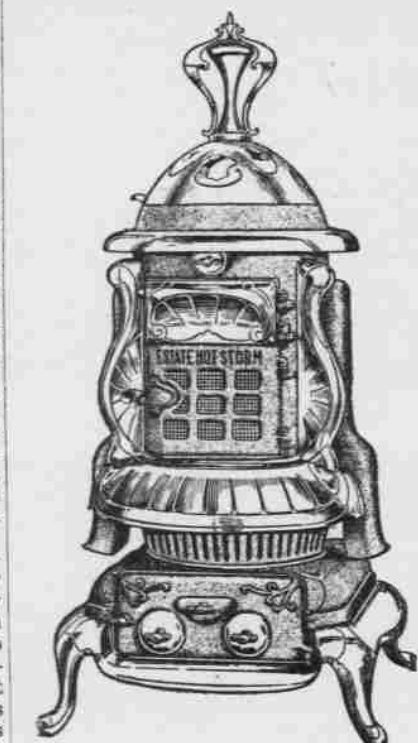

Many manufacturers still continue to use them.

The Overland does not. The 75 B Overland has the latest type of cantilever shock absorbing springs. As a result it is one of the easiest riding cars in the world. One demonstration will prove this. \$635 f. o. b. Toledo.

### FORM RESERVE OFFICERS TRAINING CORPS UNIT

That The Ohio State University has been selected as one of the five land-grant colleges in the Middle West which are permitted to organize units in the Reserve Officers Training Corps, was the news received last week from the commanding general of the Eastern department.

The regulation under which the unit will be conducted involve a change only in so far as upperclassmen are concerned. The two-year compulsory drill will be the same as before, but in addition, juniors and seniors will be eligible to elect the officers' training course, which will bring them uniform and pay at the rate of about \$9 per month. Upon completion of their course they will be given commissions as second lieutenants in the army.

It is expected that at least 100 upperclassmen will volunteer for service. When a sufficient number is enrolled, signal and hospital corps will be organized, with lowerclassmen serving as privates and men from the advanced courses as officers.

"I do not know when we will begin organization of the unit here," said Major George L. Converse, commanding officer. "The program for the juniors and seniors enrolled in the course cannot be prepared until further action is taken by Congress."

### FLAME FROM GAS WELL KEEPS SHEEP WARM

"Through the ingenuity of certain ranchers in the state of Washington," says the December Popular Mechanics Magazine, "their sheep were kept warm during the intense cold weather of last year by a most unusual device. A supply of natural gas on the land where the sheep grazed had been piped and the gas issued from it at high pressure. The ranchmen in the vicinity devised a metal hood which they fastened over the upper end of the pipe. When the gas was lighted and allowed to flow freely it made a circular canopy of flame which heated the air for a considerable area. In this warm region the sheep gathered and were made comfortable in spite of weather which otherwise would have proven too severe for them."

Try Tribune advertising and note the results.

## Hemo Is More Than Malted Milk

Do you suffer from indigestion, sleeplessness or nervousness? Do you feel distressed after eating or weak upon arising in the morning?

HEMO, a palatable food drink, has helped to supply energy, to build health for thousands and will do the same for you.

Makes a delicious food drink by simply adding water.

We suggest that you try a 50c package with our guarantee of satisfaction.

### MARINES THANKSGIVING

Mare Island, Calif., Nov. 30.—United States Marines at the recruit depot here are spending Thanksgiving in a manner reminiscent of other days back home with the folks. Mince pie, turkey with all the "fixins," and other good things, make the dinner given by Uncle Sam to his sea-soldiers this day an event long to be remembered. The menu, which will be served to U. S. Marines the world over whether they serve aboard ship in China, or do duty with the expeditionary force in Santo Domingo, will be similar to the one printed below:

Cream of tomato soup, Lobster salad. Roast turkey with oyster dressing. Cranberry sauce. Giblet gravy. Olives. Curry. Cold boiled ham, Mashed Irish potatoes. Candied Nancy Hall sweet potatoes. Assorted chocolate drops. Mixed nuts. California oranges. North Yakima apples. Raisins. Pumpkin pie. Mince pie. Fruit cake. Cigarettes. Bread. Butter. Coffee. Cigars. Cider.
